

Ph.D. Program in Management Science and Economic Decision

Shenzhen University, China

Doctoral Program in College of Management

Overview of the Program

Shenzhen, situated immediately north of Hong Kong, is one of the first-tier cities in China. Shenzhen was dubbed as China's Silicon Valley due to its high concentration of technology innovation and entrepreneurship.

Shenzhen University (SZU), as one of the most popular universities in China, is now accelerating its pace toward establishing a research-intensive university. It has been at the forefront of many academic reforms and has been pursuing excellence in teaching as well as research programs for doctoral degrees. International students are especially welcome to apply for doctoral studies at Shenzhen University.

The Ph.D. Program in Management Science and Economic Decision at the College of Management aims at providing society with highly qualified professionals who are capable of pursuing advanced research or taking leadership positions in economic and managerial areas involving complex decisions. Students learn through rigorous curriculum study and participation in real-world research endeavors featured by regional and national research projects.

The program has three concentrations: Decision Optimization and Market Behavior, Environmental Economics and Resource Management, and Human Resource Management, each represented by a team of faculty researchers.

Now the program is open to international students who may apply and enjoy similar benefits in terms of financial support (e.g. scholarship and assistantship offered by the university).
